Note

Where the Commission has been advised of more than one freight (road) rate, it has incorporated these rates into the final retail prices. Thus a range in the final retail price reflects more than one wholesale supplier to retail sites in a particular location.

It has come to the attention of the Commission that some service stations have been slow in changing their pump prices to conform with this notice. The Commission will continue to closely monitoring service stations to ensure they comply in a timely manner. The *Prices Regulation Act* under which this maximum price is determined provides for penalties if pump prices are not changed consistent of this notice. Please bring this information to the attention of retailers.
