PRESS STATEMENT

INDICATIVE RETAIL FUEL PRICES - DECEMBER 2024

The Independent Consumer and Competition Commission (“**ICCC**”) hereby announces the new retail fuel prices for this month, which will take effect on Sunday, 8th December 2024.

For this month (December 2024), the Indicative Retail Prices (**IRPs**) for petrol will decrease, while diesel and kerosene will increase, throughout PNG. Whilst petrol prices reflect the decrease in crude oil prices observed in November 2024, the prices for diesel and kerosene/Jet A1, have both increased in November in Asia. This is due to a number of reasons which include supply reduction from China and subsequent increase in the refinery margins for diesel and jet fuel, increased demand for diesel and heating oil during the winter season in the Northern Hemisphere, and increased demand for jet fuel in response to increased travel during the festive season¹.

The domestic retail fuel prices (**IRPs**) for this month are inclusive of the Import Parity Prices (**IPPs**) or the imported costs for each petroleum product, domestic sea and road freight rates for the third quarter of 2024, the annual wholesale and retail margins for 2024 and the Goods and Services Tax (**GST**), including the applicable excise duties, among other parameters.

PORT MORESBY

As a result of adding all the various cost components mentioned above, the maximum retail price movements for petrol, diesel and kerosene in Port Moresby will change as follows:

Port Moresby Retail Prices (toea per litre, tpl)	Petrol (tpl)	Diesel (tpl)	Kerosene (tpl)
Retail Price as of 8 th December 2024	422.79	407.22	379.21
Retail Price as of 8 th November 2024	424.09	401.85	374.31
Change (+/-) tpl	-1.30	+5.37	+4.90

ALL CENTRES

Retail prices in all other designated centers will change according to their quarterly approved domestic freight rates for the fourth quarter of 2024, and their respective annual retail margins for this year. For all other centers, the maximum retail prices for each regulated petroleum product will change on average consistent with the changes observed for Port Moresby.

The prices set by the ICCC are the indicative maximum retail prices, for which retailers may choose to sell below the ICCC approved maximum price.

Whilst retailers may choose to set fuel prices on their pumps to one decimal place, the ICCC will continue to set the maximum price to 2 decimal places. No fuel pump operator should charge above the Indicative Retail Price for this month's price regardless of the number of decimal places. This is to ensure compliance with the *Prices Regulation Act* under which the maximum prices of declared petroleum products are set. Retailers who are displaying prices to 1 decimal place are urged by the ICCC to round the prices down to ensure prices are within the allowable indicative retail prices.

ICCC Inspectors will continue to conduct spot checks after 8th December 2024, to ensure on-going compliance by retail fuel operators.

Consumers are advised to report any instances of overcharging by retailers through the ICCC's Consumer Protection Division on telephone number **312 4600**, or by contacting our Regional Offices closest to you on the numbers provided above.
