

## INDEPENDENT CONSUMER & COMPETITION COMMISSION

### PRESS STATEMENT

#### INDICATIVE RETAIL FUEL PRICES - JANUARY 2025

The Independent Consumer and Competition Commission ("ICCC") hereby announces the new retail fuel prices for this month, which will take effect on Wednesday, 8<sup>th</sup> January 2025.

For this month (January 2025), the Indicative Retail Prices (IRPs) for petrol diesel and kerosene will increase on average throughout PNG. This means that while few centres will see decreases in the prices for one or two declared products at the service stations, the rest of the centres will see increases. This is mainly due to the general increase in the retail margins, as determined in the *2024 Petroleum Industry Pricing Review*.

The domestic retail fuel prices (IRPs) for this month are inclusive of the Import Parity Prices (IPPs) or the imported costs for each petroleum product, domestic sea and road freight rates for the first quarter of 2025, the approved annual wholesale and retail margins for 2025 and the Goods and Services Tax (GST), including the applicable excise duties, among other parameters.

#### PORT MORESBY

As a result of adding all the various cost components mentioned above, the maximum retail price movements for petrol, diesel and kerosene in Port Moresby will change as follows:

Port Moresby Retail Prices (toea per litre, tpl)	Petrol (tpl)	Diesel (tpl)	Kerosene (tpl)
Retail Price as of 8 <sup>th</sup> January 2025	430.78	407.05	376.24
Retail Price as of 8 <sup>th</sup> December 2024	422.79	407.22	379.21
Change (+/-) tpl	+7.99	-0.17	-2.97

#### ALL CENTRES

Retail prices in all other designated centers will change according to their quarterly approved domestic freight rates for the first quarter of 2025, and their respective annual retail margins for this year. On a **national average**, the maximum retail prices for each regulated petroleum product will increase on as follows:

- Petrol prices will increase by 11.63 toea per litre;
- Diesel prices will increase by 3.47 toea per litre; and
- Kerosene prices will increase by 0.66 toea per litre.

#### ENFORCEMENT AND COMPLIANCE

As part of the ICCC's enforcement and compliance of fuel prices, the ICCC Officers will conduct inspections to all service stations to ensure prices of declared petroleum products comply with the allowable maximum prices. The following ICCC officers will conduct compliance inspections in Lae, Mt. Hagen, Kokopo and Port Moresby. Inspections in other provinces will be supported by our ICCC Agents and respective Provincial Administration in those provinces. Please note:

The prices set by the ICCC are the indicative maximum retail prices, for which retailers may choose to sell below the ICCC approved maximum price.

Whilst retailers may choose to set fuel prices on their pumps to one decimal place, the ICCC will continue to set the maximum price to 2 decimal places. No fuel pump operator should charge above the Indicative Retail Price for this month's price regardless of the number of decimal places. This is to ensure compliance with the *Prices Regulation Act* under which the maximum prices of declared petroleum products are set. Retailers who are displaying prices to 1 decimal place are urged by the ICCC to round the prices down to ensure prices are within the allowable indicative retail prices.

ICCC Inspectors will continue to conduct spot checks after 8<sup>th</sup> January 2025, to ensure on-going compliance by retail fuel operators.

Consumers are advised to report any instances of overcharging by retailers through the ICCC's Consumer Protection Division on telephone number **312 4600**, or by contacting our Regional Offices closest to you on the numbers provided above.
